
Financial Risk Management (FRM) Frequent Asked Questions

1. What are the minimum eligibility requirements for FRM exam?

There are no minimum eligibility requirements for appearing in the FRM exam. However, in order to be certified as a Financial Risk Manager, the following are required:

- A passing score on the FRM Examination
- Active Fellow membership in the Global Association of Risk Professionals (GARP)
- A minimum of two years' experience in the area of financial risk management or another related field including, but not limited to, trading, portfolio management, academic or industry research, economics, auditing, risk consulting, and/or risk technology

2. What if I do not have relevant work experience?

Please note that there is no eligibility requirement for appearing for the FRM exam. So, one can appear for the FRM exam, clear the same and then get the relevant work experience and then get the certification.

If one passes the FRM exam (Full exam or both Part-1 and Part-2) but does not have the 2 years of relevant work experience, GARP issues a letter stating that the candidate has passed the FRM exam. The candidate will be considered as "FRM Holder" but not "Certified FRM Holder". The candidate can use the FRM designation only after submitting the proof of the 2 years of work experience to GARP, and after receiving the GARP confirmation that the candidate has been formally included on its registry of certified FRM holders.

However, one can list the following statement on your CV/Resume: "FRM Program: Passed Parts I & II". This certainly adds value to the resume.

3. How much time do I have to complete the FRM Certification process?

Once a candidate passes the FRM Exam Part I, he/she must then pass the FRM Exam Part II within 4 years. Candidates have 5 years from the date they sat and passed the FRM Exam Part II to have their work experience verified.

4. Does an internship position count towards my two years of experience?

No, unfortunately, the program required two years of professional experience, and an internship position does not meet these requirements.
